

FYI: Dialogue Instructors

-Ron Dooley

1. NPD1 instructors should advise students interested in any sciences to consult immediately with the science division and to begin taking science pre-requisites as soon as possible to avoid falling a year behind in the major.
2. NPD2 requires NPD1 [or its transfer equivalent] as a prerequisite and NPD3 requires NPD2 [or its transfer equivalent] as a pre-requisite. Appropriate exceptions can be made for hardship cases in consultation with the Director of Dialogue.
This policy does not disallow a student's taking two NPD courses during the same academic year [i.e. if a student fails NPD1 he/she may take NPD1 the following fall and NPD2 immediately thereafter in the spring semester].
3. In the event a student drops NPD1, the student retains the same advisor for the year.
